‘Neuroscience in Critical Care’

Tuesday, 24th June, 2008
9 a.m. until 5 p.m.
City Hall
Cardiff, Wales. CF10 3ND
CPD Approved

Tuesday, 24th June, 2008

It gives us great pleasure in inviting you to our meeting 'Neurosciences in Critical Care'. This is our ninth meeting in a series on updates in critical care medicine. The venue for the meeting is the Cardiff City Hall, situated in the heart of the city.

The programme has been developed for our busy colleagues, both nursing and medical, involved in caring for patients with neurological emergencies across the A&E, radiology, critical care and neurology & neurosurgery. Through this meeting we aim to review and provide an update in intra-cranial monitoring, neuroradiology and in the management of common neurological and neurosurgical emergencies. We have organised lectures and clinical workshops with the help of our speakers so as to draw upon their expertise.

We hope you will be able to attend what promises to be an illuminating day of presentations and discussions.

Dr. Sanjoy Shah
Consultant in Intensive Care
*University Hospital of Wales,
Cardiff*

Ann Taylor
